1936 AGRICULTURAL CONSERVATION PROGRAM - WESTERN REGION

Bulletin No. 4 - Arizona

COUNTY AVERAGE RATES OF SOIL-CONSERVING PAYMENTS IN CONNEC-
TION WITH THE GENERAL SOIL-DEPLETING BASE

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 1 Revised is hereby supplemented with respect to its application to the State of Arizona, but not otherwise, as follows:

Section 1. County Average Rates of Soil-Conserving Payments for Production of Soil-Conserving Crops on Acreage Diverted from the General Soil-Depleting Base.

In accordance with the provisions of Section 2 (a) of Part II of Western Region Bulletin No. 1 Revised, and subject to the provisions of said bulletin and all other bulletins heretofore or hereafter issued, the county average rates of payment per acre to be used in determining payments for each acre of the general soil-depleting base which in 1936 is used for the production of soil-conserving crops, shall be as follows for the respective counties in the State of Arizona.

County	Rate of Payment Per Acre	County	Rate of Payment Per Acre
Apache	\$7.30	Mohave	\$9.30
Cochise	10.20	Navajo	5.70
Coconino	6.10	Pima	8.20
Gila	6.40	Pinal	11.80
Graham	13.50	Santa Cruz	7.70
Greenlee	13.00	Yavapai	7.60
Maricopa	17.30	Yuma	18.80

Section 2. Rates of Payment as Applied to Individual Farms. For individual farms in the foregoing counties the rate of payment for each acre of the general soil-depleting base (not in excess of 15 percent of the general soil-depleting base for any farm) which in 1936 is used for the production of a soil-conserving crop, shall be that rate determined by multiplying the county average rate for the county in which the farm is

located by the productivity index established for the farm in accordance with the provisions of Section 1, Part I, Western Region Bulletin No. 3, and then dividing the result by 100.

[SEAL]

IN TESTIMONY WHEREOF, H. A. Wallace,
Secretary of Agriculture, has hereunto
set his hand and caused the official
seal of the Department of Agriculture
to be affixed in the City of Washington,
District of Columbia, this 29th day
of May, 1936.

Bulletin No. 4 - New Mexico

COUNTY AVERAGE RATES OF SOIL-CONSERVING PAYMENTS IN CONNECTION WITH THE GENERAL SOIL-DEPLETING BASE

Pursuant to the authority vested in the Secretary of Agriculture under Section 8 of the Soil Conservation and Domestic Allotment Act, Western Region Bulletin No. 1 Revised, is hereby supplemented with respect to its application to the State of New Mexico, but not otherwise, as follows:

Section 1. County Average Rates of Soil-Conserving Payments for Production of Soil-Conserving Crops on Acreage Diverted from the General Soil-Depleting Base.

In accordance with the provisions of Section 2 (a) of Part II of Western Region Bulletin No. 1 Revised, and subject to the provisions of said bulletin and all other bulletins heretofore or hereafter issued, the county average rates of payment per acre to be used in determining payments for each acre of the general soil-depleting base which in 1936 is used for the production of soil-conserving crops, shall be as follows for the respective counties in the State of New Mexico:

COUNTY	RATE OF PAYMENT PER ACRE	COUNTY	RATE OF PAYMENT PER ACRE
Bernalillo	\$ 6.30	McKinley	\$ 5.50
Catron	5.10	Mora	5.00
Chaves	12.20	Otero	8.10
Colfax	6.10	Quay	6.60
Curry	8.90	Rio Arriba	6.20
DeBaca	8.40	Roosevelt	7.80
Dona Ana	10.90	Sandoval	7.70
Eddy	11.10	San Juan	9.40
Grant	6.80	San Miguel	4.50
Guadalupe	4.50	Santa Fe	4.70
Harding	5.20	Sierra	10.40
Hidalgo	12.30	Socorro	7.20
Lea	4.50	Taos	7.70
Lincoln	6.20	Torrance	5.40
Luna	13.50	Union	5.80
		Valencia	6.40

Section 2. Rates of Payment as Applied to Individual Farms.

For individual farms in the foregoing counties the rate of payment for each acre of the general soil-depleting base (not in excess of 15 per cent of the general soil-depleting base for any farm), which in 1936 is used for the production of a soil-conserving crop, shall be that rate determined by multiplying the county average rate for the county in which the farm is located by the productivity index established for the farm in accordance with the provisions of Section 1, Part I, Western Region Bulletin No. 3, and then dividing the result by 100.
